

UEPG Sustainable Development Awards 2020

Company: Holemans GmbH

Location: Rees, Germany

**Corporate Communication – analogue,
personal and sustainable – Holemans
symposia and reference books**

Every two years, a “Holemans Sympos are to offer new and unexpected perspectives to local decisionmakers and stakeholders, to draw their gaze beyond their everyday business and thus to sustainably enrich the (public) debate concerning the extraction of raw materials. Just as popular are the Holemans reference books, published after each symposium. The book resumes speakers’ interventions as well as additional reports and thesis on the same topics.
